

CH15MS Flameless Heater

The CH15MS industrial heater uses a patented magnetic heat generating technology. The CH15MS can be thermostatically controlled, allowing you to set the temperature and CFM output to carry out crucial heating operations.

Features

- 1.5 million BTU equivalent
- Thermostatically controlled
- 200° F temperature rise
- Up to 7200 CFM
- 14" above WC static pressure
- 110% secondary containment
- CSA Field Certified
- Self-contained unit with no external power source required
- Positive air shutoff
- Clean, breathable air
- Rugged design for increased durability

A CH15MS heater heating multiple BOPs simultaneously using split ducting on an oilfield

Applications

- Drill deck, pump station and water line heating
- Snubbing stack heating
- Heating wellheads and BOPs
- Equipment thawing and deicing

Oil and Gas

- Concrete curing
- Ground thaw
- Aggregate Heating
- Worker Comfort Heating
- Multi-story construction heating

Construction

- Tank coating and curing
- Surface Preparation
- Moisture and humidity control
- Dehumidification
- Deicing
- Auxiliary heat

Coatings and Painting

A CH15MS heater curing a large concrete section on a construction project

Delivering hot, dry, air to control humidity and temperature while coating a large tank

Technical specifications

Performance

BTU rating	1.5 million
CFM range	1500 - 7200
Static Pressure	14" above WC

Fuel Data

Fuel Capacity	235 gallons
Fuel Type	ULS Diesel
Fuel Consumption	3.5 - 8.5 gph

Engine Data

Type	John Deere 6068 HF385 or Cummins
Oil Type	15W 40 / 8 gallons

Dimensions

Height	Length	Width	Dry Weight
8'	14' 9"	6' 10"	8440 lbs

Additional Features

- GPS tracking for location and runtime
- Strobe Operating light
- Low Fuel shutdown
- Guaranteed runtime of 24 hours between fueling
- Trailer hitch 2 5/16" Ball or Pintle

With our 24x7 service response model, we strive to eliminate downtime and guarantee fastest service turnaround.

The Cahill CH15MS heaters are available for SALES and RENTAL
